Date: 12/01/2008
Re: Registration For Plots

Welcome to the 2009 season of Moses Lake Community Gardens.

Enclosed is the flyer with all the information as to when to sign up. We are offering you a chance to have your gardens rototilled for a small fee. Please inform us when you come in to register that you would like this service. All gardens will be rototilled by March 6th if you request the service.

Also, enclosed are the rules for the 2009 gardening season. Please read all rules on the flyer carefully as the rules have been redone and sign and return to us when you register for your plot. Please remember that what you plant should grow within the limits of your plot and the community garden season.

The green house will be available for year around use but during the winter months, no water will be available.

If you have question on your gardens or about the program, please contact me at 766-3603 or email me at sschwiesow@ci.moses-lake.wa.us

Thank You
